

Accelerating Sales & Marketing Effectiveness for Sustained Growth

JUNIOR DEVELOPER

Cuyahoga Falls Company, focused on Location Intelligence (mapping), Customer Relationship Management (CRM), and SQL Reporting Services seeks full time Junior Developer. This unique opportunity will expose the programmer to a broad range of Microsoft's technologies and will become a key player within our organization.

POSITION DESCRIPTION: Our applications are built on Microsoft .NET technologies and a multi-tiered architecture that allows for integration with other systems through web services. The ideal candidate will demonstrate most or all of the following qualities:

Experience:

- One to two years of application development using Visual Studio
- Designed, programmed and deployed several Web/Desktop applications on the .NET platform.
- Has written and used stored procedures create in SQL Server in applications.
- Loves to build business solutions and "Gets the Big Picture"
- You value constant forward momentum, you know how to get the most out of your development time, and you are considered a great performer who delivers on schedule.
- Gets the idea that new technology is cool and loves to learn it.

Qualifications:

The ideal candidate has a BS in Computer Science or equivalent industry experience and has spent the last 1 or more years directly responsible for programming Web applications. In the interview, we will ask the candidate to demonstrate their skills by writing real-time code samples based on questions from the interviewers. Additionally, the candidate demonstrates ability in most of the following areas:

- Outstanding organization, problem solving, decision making and analytical skills
- Strong interpersonal skills and customer focus
- C# or VB.NET and the .NET Framework 3.5
- ASP.NET and related performance analysis and troubleshooting
- AJAX, JavaScript, HTML/CSS
- Microsoft SQL Server 2005/2008
- Visual Studio 2005 or 2008
- Exceptional oral and written communication skills
- Capable and wanting to obtain various Microsoft Certifications
- Must be US Citizen or Permanent Resident

Compensation: Competitive + benefits, and certification training
