Dynamics 365 for Hospice

Managing the business side of hospice care

Solution Overview

Patient care is your purpose and your mission, but delivering quality care depends on your ability to communicate and work with your communities.

- Family members
- Volunteers
- Care providers
- Donors
- Vendors

Dynamics 365 for Hospice helps you nurture these valuable relationships. You pick the functionality you need today and can add modules as needed in the future.

Why Dynamics 365 for Hospice?

Dynamics 365 for Hospice is built on the modern, cloud-based Dynamics 365 platform. The software has been optimized to provide quick setup and is exclusively available through InfoGrow.
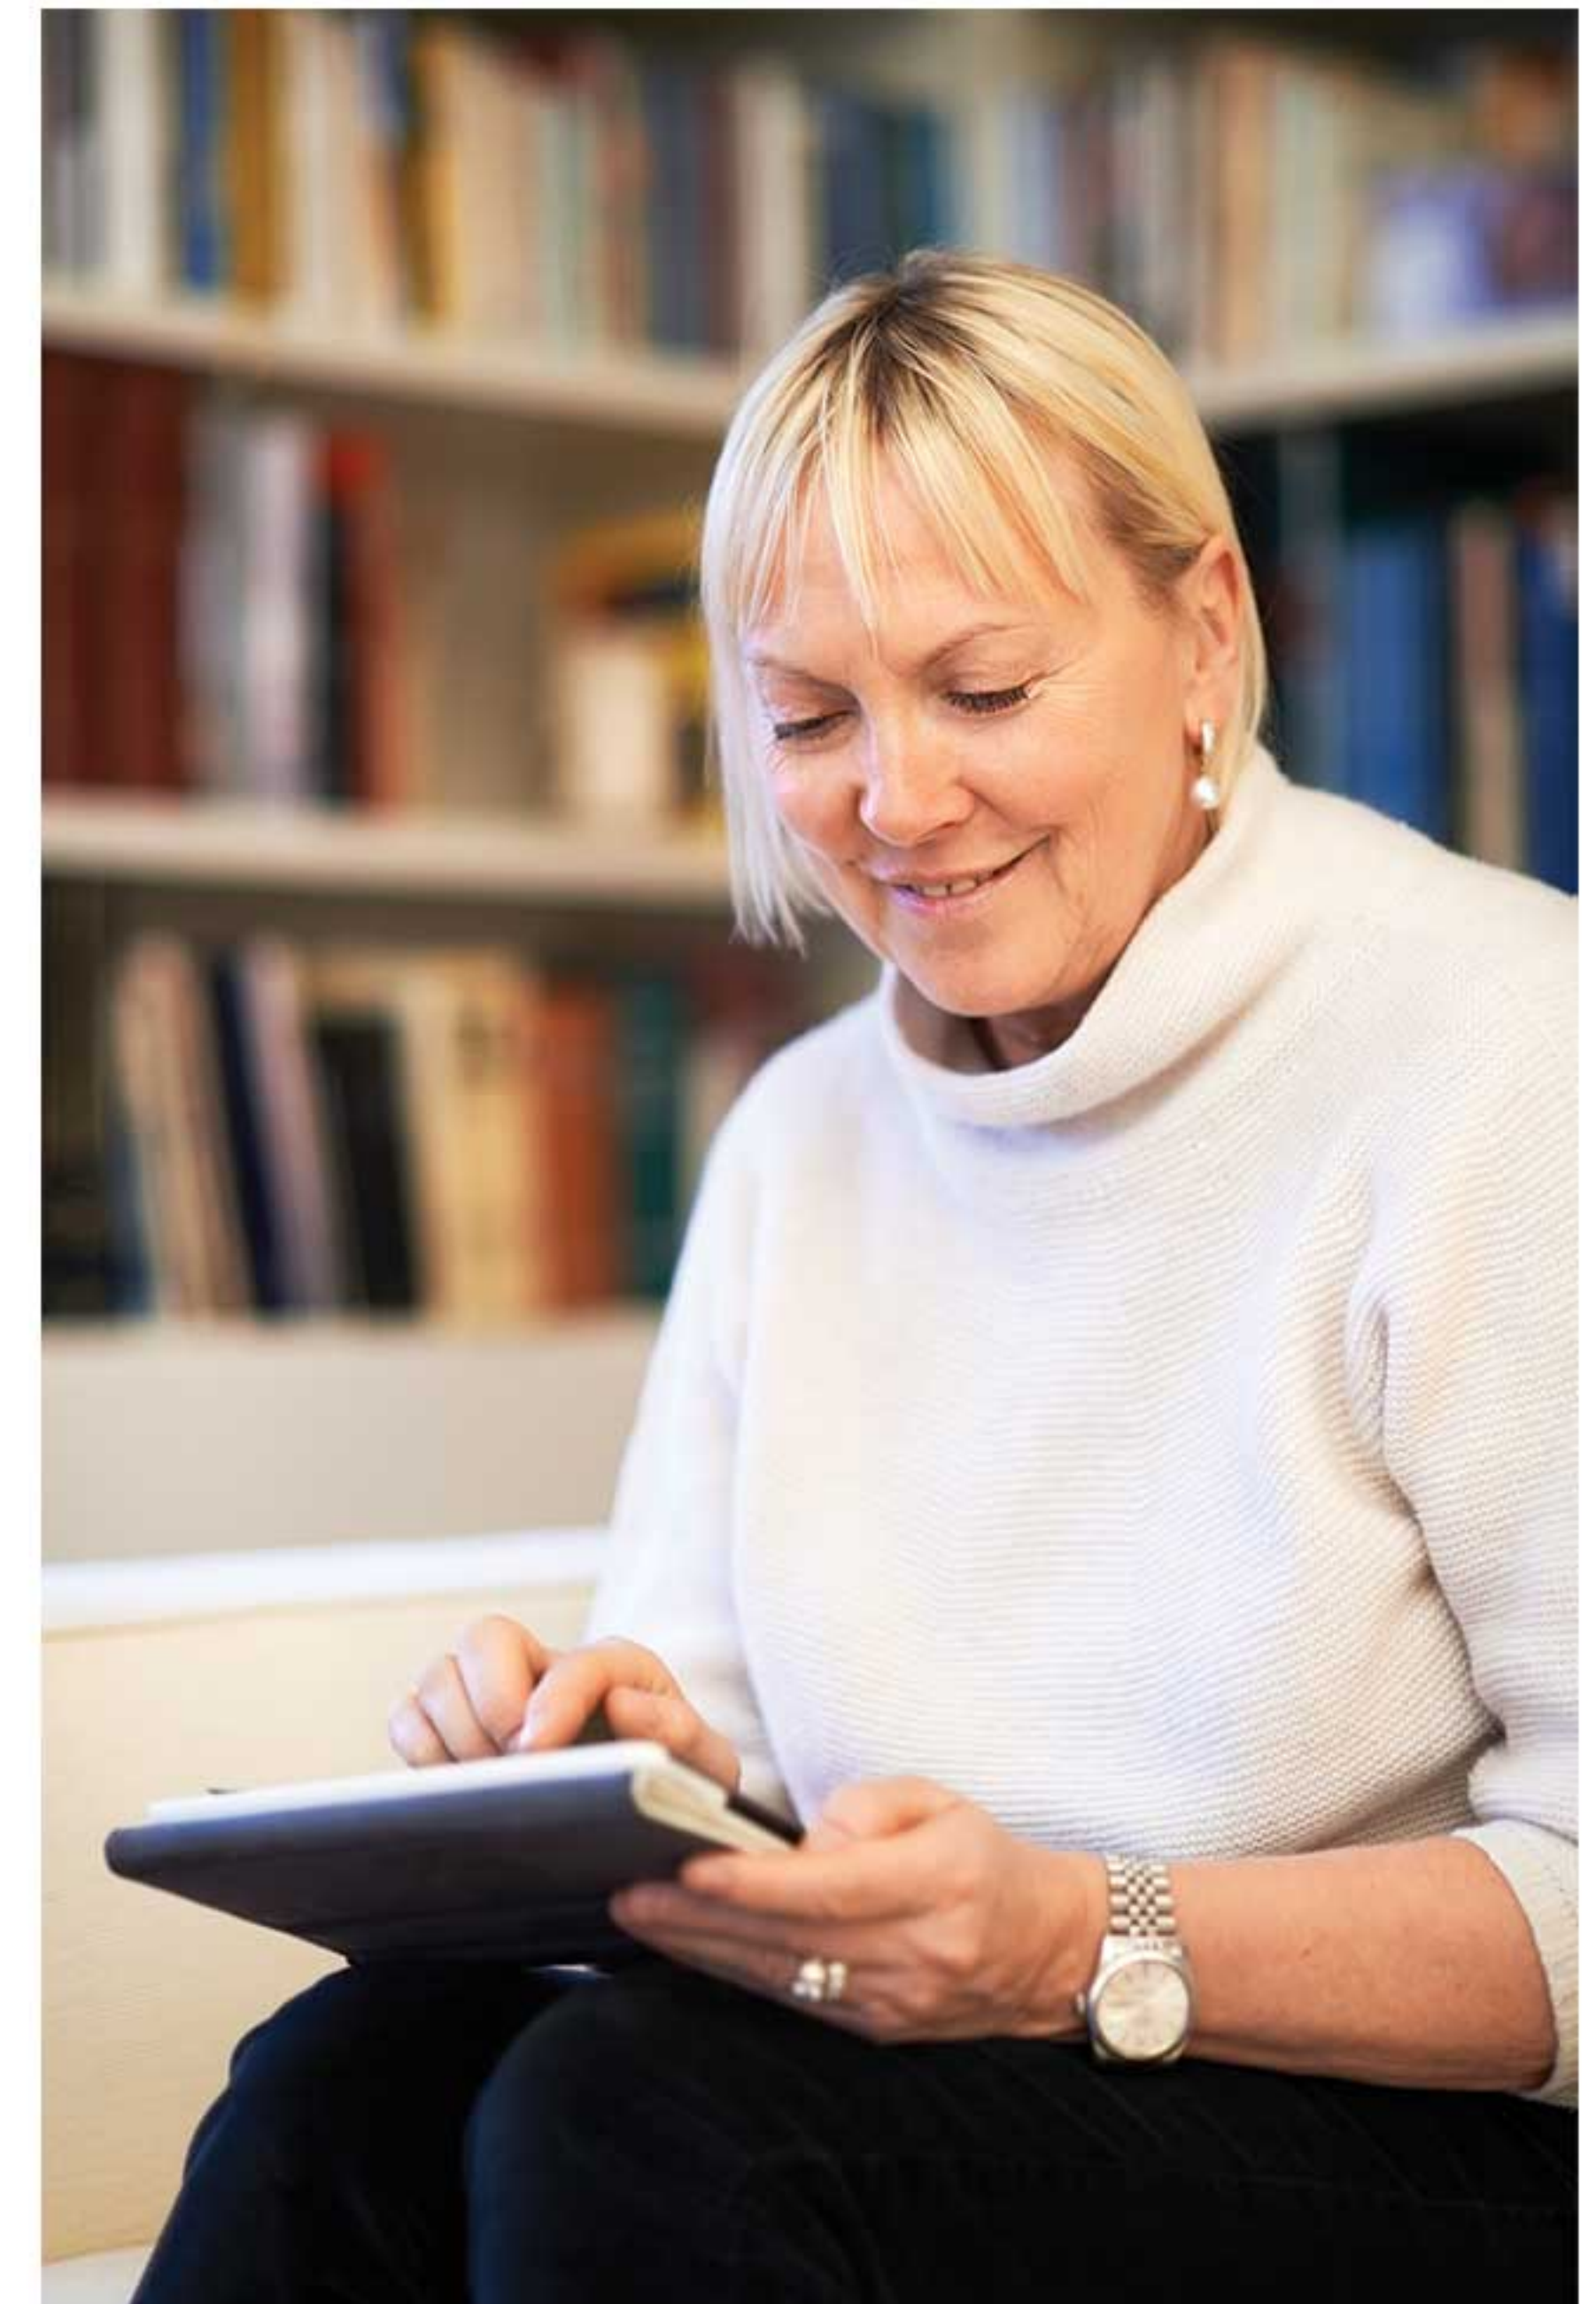

Dynamics 365 for Hospice:

- Integrates natively with Microsoft Office

- Offers an all-in-one platform, managing operations outside of your medical records system (EMR)

- Uses Power BI to provide near real-time insights

- Can be used on any mobile or desktop device

- Includes the highest-levels of data security

5 Reasons to Choose Dynamics 365 for Hospice

1. Eliminates the confusion and expense of managing multiple systems.

2. Reduces software licensing costs.

3. Stops reliance on inefficient spreadsheets, databases and email.

4. Provides accurate, enterprise-wide visibility of operations.

5. Frees up time for real work by cutting down on meetings and paperwork

Key Capabilities

- Referrals/triage processing delivers faster deployment of resources and cuts communications volume
- Significantly increases provider relations with clinics and doctors
- Eliminates burdensome donations and tributes processing time and license fees
- Offers better volunteer management by interests and skills
- Reduces cost of medical equipment tracking
- Increases incident close-out effectiveness and reimbursement speed
- Improves coordination of family communications across system
- Streamlines vendor contract approval and renewal processing
- Automates mileage tracking/reporting

> *Thanks to InfoGrow and Dynamics 365 for Hospice, we're able to accomplish more every day. Reducing the administrative burden on our staff has been very well received. One process in particular used to take 4 weeks. Now it's DONE in 3 days!*
